## Why join the “Wholesome Leadership™” Gathering?

The world is being reborn. Old ways of living and working are slowly being replaced by new ones. We are all facing challenges that call for the very best in us. Most of these challenges arise from a partial and fragmented view of life and development.

Can we together respond to these challenges? We feel we can! To do this we need two things:

- ◆ A totally new paradigm of development, which puts the well-being of all and human evolution at the centre (*Read: The Sustainability Imperative, Harvard Business Review*); and
- ◆ New leaders who have the vision and inner capacity to co-create a global movement for transformation needed at this crucial time in the world's evolution.

We need a new way of leading; one that is based on universal human values and inspires behaviour which is good for people, profits and our planet. While there are many people, business organizations and other institutions doing great work all over the planet, **these are not fully integrated and unified right now.** There is an urgent need for leaders who can weave all positive and evolutionary processes together, building on each others' strengths to expand and create value and true wealth for all. This is the task of Wholesome Leaders.

## What is Wholesome Leadership™?

Wholesome Leadership™ is leading in full alignment with the fullness of life. It is about taking a holistic view of business leadership as embedded in the larger flow of life. It is about balancing polarities such as profits and sustainability, task and relationships with people development and achieving results.

We invite you to be a part of an international “Community of Practice” which will share insights and examples on “Wholesome Leadership™” from different business situations, NGO’s and cultures across the world.

## Wholesome Leadership™ can be experienced as:

- ◆ Leadership which is a continuous process and a field, rooted in a holistic/spiritual experience of life;
- ◆ Leadership which fosters open and creative interactions between people, recognizing their intrinsic creative and sacred essence;
- ◆ Leadership which is dynamic and evolving, dissolving old structures and allowing the emergence of new structures; and
- ◆ Leadership which is one with the abundance, openness, celebration and love of life in its magnificent wholeness.

## Take Aways...

### The benefits to you from attending this gathering will be:

- ◆ Deepening your understanding of what constitutes Wholesome Leadership in practice; its relevance and benefits for yourself, your role, your organization and your business;
- ◆ Being a part of an international “Community of Practice” of people who are successfully pursuing this approach;
- ◆ Learning and practicing tools and techniques to operationalize the practice of Wholesome Leadership™;
- ◆ Personal growth through new insights and experiences during the programme and ample space for deep reflection in very beautiful and sacred surroundings; and
- ◆ Networking with outstanding professionals, peers and like spirited people from India and overseas, thereby leading to new friendships and value partnerships.

Apart from the above benefits, you will also get a kit containing powerful presentations, inspiring reading material and weblinks to the best organizations and sites related to Wholesome Leadership. You would also be able to subsequently take regular downloads of articles and other resources from our website: [www.pragatileadership.com](http://www.pragatileadership.com)

### Themes for the Leadership Gathering
